

### ***Triad Quarterback Club and Boosters Work on Improvements at Triad's Stadium***

Over the past several weeks, members of the Triad Quarterback Club and the Triad Boosters have worked collaboratively to get the stadium ready for the new football season. With shared costs and labor, painting on the spirit shack, ticket booth, and stadium seating have been undertaken to improve the appearance around the football stadium. In addition, work has begun on the placement of vinyl siding on sections of the ticket booth and spirit shack. These efforts describe just a few of the volunteer efforts seen in our district. Other organizations such as the Band Boosters, the Triad PTA, and individual community members have been using the new volunteer utilization process to help support our students. The Triad Board of Education and the administration offer our sincere gratitude for the support shown by our community. To learn more about getting involved in volunteer efforts, go to the new volunteerism section of the Triad web site. This can be easily accessed as a quick link on the left hand side of the district home page.
