

PANDEMIC GAP CLOSING

Following the pandemic, Triad Local Schools was tasked with finding ways to fill the expected academic and social-emotional gaps. Below are two core points that will support the foundational framework and help us to achieve progress in both academics and student well-being. By prioritizing these two areas, we believe we will help our students close the gaps brought on by the pandemic. We are grateful to our community for your support as we have navigated the past year.

ACADEMIC ACHIEVEMENT

- Increased staffing to focus on early literacy programming year-round
- Expanded summer school programming
- Increased focus on data to inform instruction and intervention
- Intentional academic professional development for staff

SOCIAL-EMOTIONAL WELL-BEING

- New programming to evaluate student need
- Intentional professional development for staff
- Enhanced community partnerships
- Expanded summer support opportunities
- Focused Mental Health Plan
